Compliant SDS for GHS: HazCom 2012 / United States; WHMIS 2015 / Canada

SAFETY DATA SHEET

Signature Series Max-Duty Synthetic Diesel Oil

| Section 1. Identification Date Version | | | 10/01/2016 7 |
|--|--|-----------|-----------------|
| GHS product identifier | : Signature Series Max-Duty Synthetic Diesel Oil | | |
| Code | : DME | | |
| Product type | : Liquid. | | |
| Identified uses | : Diesel Engine Oil. Not to be misted. | | |
| Manufacturer | : AMSOIL INC. One AMSOIL Center Superior, WI 54880 Tel: +1 715-392-7101 | | |
| Initial Supplier (Canada) | : AMSOIL INC. Bordner, Ladner, Gervais Scotia Plaza, 40 King St W Toronto, ON, Canada M5H 3Y4 Tel: +1 416-367-6547 | | |
| Emergency telephone number (with hours of operation) | : CHEMTREC: Within USA and Canada: 1-800-424-9300; Outside USA and Canada: +1 703-741-5970 (collect calls (24/7) | accepted) | |

Section 2. Hazards identification

| OSHA/HCS status | : This material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). | | |
|---|---|--|--|
| Classification of the substance or mixture | : AQUATIC HAZARD (ACUTE) - Category 3 AQUATIC HAZARD (LONG-TERM) - Category 3 | | |
| GHS label elements | | | |
| Signal word | : No signal word. | | |
| Hazard statements | : Harmful to aquatic life with long lasting effects. | | |
| Precautionary statements | | | |
| Prevention | : Avoid release to the environment. | | |
| Response | : Not applicable. | | |
| Storage | : Not applicable. | | |
| Disposal | : Dispose of contents and container in accordance with all local, regional, national and international regulations. | | |
| Hazards not otherwise classified (HNOC) | | | |
| Physical hazards not otherwise classified (PHNOC) | : None known. | | |

Date of issue : 10/01/2016

```
Health hazards not
otherwise classified
(HHNOC)
```

: None known.

Section 3. Composition/information on ingredients

| Substance/mixture | : Mixture |
|-------------------|------------------|
| Other means of | : Not available. |
| identification | |

| CAS number/other ident | <u>ifiers</u> | | |
|--|-------------------|--------------------------------------|---|
| CAS number | : Not applicable. | | |
| Product code | : DME | | |
| Ingredient name | | % | CAS number |
| bis(Nonylphenyl)amine Benzenesulfonic acid, mono-C16-24-alkyl derivs., calcium salts Alcohols, C12-16, ethoxylated Alkylated phenol | | 1 - 5 1 - 5 0.1 - 1 0 - 0.1 | 36878-20-3 70024-69-0 68551-12-2 121158-58-5 |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

| Description of necessary first aid measures | | | |
|---|--|--|--|
| Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 20 minutes. Get medical attention if irritation occurs. | | | |
| : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Maintain an open airway. Get medical attention if symptoms occur. | | | |
| Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse. | | | |
| : Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. | | | |
| | | | |

| Potential acute health effects | | | |
|--------------------------------|---|--|--|
| Eye contact | : No known significant effects or critical hazards. | | |
| Inhalation | : No known significant effects or critical hazards. | | |
| Skin contact | : No known significant effects or critical hazards. | | |

| Ingestion | : No known significant effects or critical hazards. | | | |
|--|---|--|--|--|
| Over-exposure signs/symptoms | | | | |
| Eye contact | : No known significant effects or critical hazards. | | | |
| Inhalation | : No known significant effects or critical hazards. | | | |
| Skin contact | : No known significant effects or critical hazards. | | | |
| Ingestion | : No known significant effects or critical hazards. | | | |
| Indication of immediate medical attention and special treatment needed, if necessary | | | | |
| Notes to physician | : Treat symptomatically. | | | |
| Specific treatments | : No specific treatment. | | | |
| Protection of first-aiders | : No special protection is required. | | | |

See toxicological information (Section 11)

Section 5. Fire-fighting measures

| Extinguishing media Suitable extinguishing media | : Use an extinguishing agent suitable for the surrounding fire. |
|--|---|
| Unsuitable extinguishing media | : None known. |
| Specific hazards arising from the chemical | : This material is harmful to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain. |
| Hazardous thermal decomposition products | : Decomposition products may include the following materials: carbon dioxide carbon monoxide nitrogen oxides |
| Special protective actions for fire-fighters | : No special protection is required. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

Section 6. Accidental release measures

| Personal precautions, protective equipment and emergency procedures | | |
|---|---|--|
| For non-emergency personnel | : Put on appropriate personal protective equipment. | |
| For emergency responders | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". | |

Order by Phone 1-800-956-5695 - Give Operator Reference #5847896

Methods and materials for containment and cleaning up

Spill : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

| Precautions for safe handling | |
|--|--|
| Protective measures | Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Avoid contact with used product. Do not reuse container. |
| Advice on general occupational hygiene | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. See also Section 8 for additional information on hygiene measures. |
| Conditions for safe storage, including any incompatibilities | Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. |

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

Under conditions which may generate mists, the following exposure limits are recommended: ACGIH TLV TWA: 5 mg/m³; STEL: 10 mg/m³.

United States

None known.

<u>Canada</u>

Occupational exposure limits None.

| Appropriate engineering controls | 1 | Good general ventilation should be sufficient to control worker exposure to airborne contaminants. |
|----------------------------------|-----------|---|
| Environmental exposure controls | : | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. |
| Individual protection measur | <u>es</u> | |
| Hygiene measures | : | Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
| Eye/face protection | : | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields. |
| Skin protection | | |
| Hand protection | : | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. |
| Body protection | : | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Other skin protection | : | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Respiratory protection | : | Not required under normal conditions of use. |

Section 9. Physical and chemical properties

| <u>Appearance</u> | |
|--|--|
| Physical state | : Liquid. |
| Color | : Brown. |
| Odor | : Mild hydrocarbon. |
| Odor threshold | : Not available. |
| рН | Not available. |
| Melting point | : -40°C (-40°F) |
| Boiling point | : Not available. |
| Flash point | : Open cup: 242°C (467.6°F) [Cleveland.] |
| Evaporation rate | : Not available. |
| Flammability (solid, gas) | : Not available. |
| Lower and upper explosive (flammable) limits | : Not available. |
| Vapor pressure | : Not available. |
| Vapor density | : Not available. |

| Relative density | : 0.8607 |
|--|--|
| Solubility | : Not available. |
| Partition coefficient: n- octanol/water | : Not available. |
| Auto-ignition temperature | : Not available. |
| Decomposition temperature | : Not available. |
| Viscosity | : Kinematic: 0.156 cm ² /s (15.6 cSt) (100°C) Kinematic: 1.124 cm ² /s (112.4 cSt) (40°C) |
| Volatility | : Not available. |

Section 10. Stability and reactivity

| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. |
|------------------------------------|--|
| Chemical stability | : The product is stable. |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. |
| Conditions to avoid | : No specific data. |
| Incompatible materials | : Reactive or incompatible with the following materials: oxidizing materials. |
| Hazardous decomposition products | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

There is no data available.

Irritation/Corrosion

| Product/ingredient name | Result | Species | Score | Exposure | Observation |
|-------------------------------|--------------------------|---------|-------|-----------------|-------------|
| Alcohols, C12-16, ethoxylated | Eyes - Moderate irritant | Rabbit | - | 24 hours 100 µL | - |

Sensitization

There is no data available.

Carcinogenicity

There is no data available.

Specific target organ toxicity (single exposure)

There is no data available.

Specific target organ toxicity (repeated exposure)

There is no data available.

Aspiration hazard

There is no data available.

| Information on the likely routes of exposure | : | Eye contact. Inhalation. Ingestion. |
|---|-----|---|
| Potential acute health effects | | |
| Eye contact | ÷ | No known significant effects or critical hazards. |
| Inhalation | ÷ | No known significant effects or critical hazards. |
| Skin contact | ÷ | No known significant effects or critical hazards. |
| Ingestion | ; | No known significant effects or critical hazards. |
| Symptoms related to the physical | sic | al, chemical and toxicological characteristics |
| Eye contact | : | No known significant effects or critical hazards. |
| Inhalation | ÷ | No known significant effects or critical hazards. |

| Inhalation | : No known significant effects or critical hazards. |
|--------------|---|
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion | : No known significant effects or critical hazards. |

Delayed and immediate effects and also chronic effects from short and long term exposure Short term exposure Potential immediate : No known significant effects or critical hazards.

| : No known significant effects or critical hazards. |
|---|
| : No known significant effects or critical hazards. |
| |
| : No known significant effects or critical hazards. |
| : No known significant effects or critical hazards. |
| ects |
| : No known significant effects or critical hazards. |
| : No known significant effects or critical hazards. |
| : No known significant effects or critical hazards. |

| : No known significant effects or critical hazards. |
| |

Numerical measures of toxicity

Acute toxicity estimates

There is no data available.

Toxicity

There is no data available.

Persistence and degradability

There is no data available.

Bioaccumulative potential

| Product/ingredient name | LogPow | BCF | Potential |
|---|-------------------------------|--------------|--------------|
| bis(Nonylphenyl)amine Alkylated phenol | 3.64 to 7.02 6.1 | 1730 1601 | high high |
| <u>Mobility in soil</u> | | | |
| Soil/water partition | : There is no data available. | | |

Other adverse effects

coefficient (Koc)

: No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling empty containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Date of issue : 10/01/2016

Section 14. Transport information

| | DOT | TDG | IMDG | IATA |
|-------------------------------|----------------|----------------|----------------|----------------|
| UN number | Not regulated. | Not regulated. | Not regulated. | Not regulated. |
| UN proper shipping name | - | - | - | - |
